

SUPPLEMENTAL CROP INSURANCE COVERAGE

MPOWERD™ - OVERVIEW

MPowerD provides coverage to pay a loss payment when the harvest margin is less than the MPowerD trigger, adjusted for any Margin Protection (MP) indemnity that may be due. It allows the producer to elect one or more pricing intervals (full or half months) in combination with the current market price and margin projected price for their commodity.

This product provides flexible coverage by practice, allowing the ability to insure irrigated and non-irrigated crops using separate coverage, MPowerD trigger, harvest margin, and loss payment for each insurable practice.

Requirements

- All planted acres in a county insured under an MPCl plan of insurance will be insured under this policy, except acres that are not insurable based on the eVantage Premium Estimation Tool.
- All insurable acres of the planted crop in the county (specified by practice) in which you have a share will be included in this policy.
- A new application is required every year. The application will not be accepted if 1) the producer owes premium for any crop insurance policy in a previous crop year, or 2) it is hand written.

Coverage will apply to no more than 110% of the greater of:

1. The number of acres you intend to plant (as indicated on your policy), without considering share; or,
2. The greatest number of acres planted under any MPCl policy in your county for the crop in any one of the most recent four calendar years, without considering share. These acres must not be disallowed by the premium quotation tool.

Note: If you are planting in a county where you have no history, you may insure no more than 110% of the intended acres you declared at the time you applied for this policy. You may be required to provide evidence to support your estimate.

Exclusions

You must:

- have MPCl coverage in effect for the crop year at an additional coverage level.
- file a timely acreage report.

COVERAGE LEVELS

70% - 95%
(in 5% increments)

PRICE MOVEMENT LIMITS

Corn - \$1.00
Soybeans - \$2.00
(increments of 25 cents)

CROPS

Corn and Soybeans
(Select states and counties)

KEY DATES

Sales Closing: September 30, 2018
for 2019 Crop Year

Acreage Reporting: July 15, 2019
for the 2019 Crop Year

Billing: October 1, 2019 for the
2019 Crop Year

Loss Payment (if applicable): 30
days after the date the final county
yields are published by the RMA
