

LIVESTOCK RISK PROTECTION

FEEDER CATTLE

LRP-Feeder Cattle is a federally-reinsured livestock product that provides protection when the national cash price index, as reported by the Chicago Mercantile Exchange (CME), falls below the insured's price coverage level. Producers may select from a variety of coverage levels and insurance periods to match the time the feeder cattle would normally be marketed. This insurance may be purchased throughout the year. Premium rates, coverage prices, and actual ending values are posted online daily. LRP does not insure against death, loss or poor performance. At the end of the insurance period, if the actual ending value is below the coverage price, an indemnity will be paid for the difference.

Availability

Ownership of insured cattle must be certified by the producer and may be subject to inspection and verification by Hudson Insurance Company.

- Available in all 50 states.
- Producers can insure up to 6,000 head per Specific Coverage Endorsement (SCE) with a limit of 12,000 head per crop year.
- Coverage may be purchased after the price guarantee is posted to the RMA site and before 9:00 a.m. CT of the following day.
- Coverage starts the day you buy a SCE and RMA approves the purchase.

New for RY 2021

- Increased head limits (see above).
- Increased subsidy rates (see right).
- Modified the livestock ownership requirement to 60 days.
- Modified the policy and created new feeder cattle types to allow for livestock to be insured before birth.
- Premium may be paid at the end of the endorsement period (billing dates per the actuarials).
