

LIVESTOCK RISK PROTECTION

SWINE

LRP-Swine is a federally-reinsured livestock product that provides protection against the decline in hog prices, as published by the Agricultural Marketing Service (AMS), over the selected insurance period. Producers may select from a variety of coverage levels and insurance periods to match the time the hogs would normally be marketed. This insurance may be purchased throughout the year. Premium rates, coverage prices, and actual ending values are posted online daily. LRP does not insure against death, loss or poor performance. At the end of the insurance period, if the actual ending value is below the coverage price, an indemnity will be paid for the difference.

Availability

Ownership of insured hogs must be certified by the producer and may be subject to inspection and verification by Hudson Insurance Company.

- Available in all 50 states.
- Producers can insure up to 40,000 head per Specific Coverage Endorsement (SCE) with a limit of 150,000 head per crop year.
- Coverage may be purchased after the price guarantee is posted to the RMA site and before 9:00 a.m. CT of the following day.
- Coverage starts the day you buy a SCE and RMA approves the purchase.
