## OVERVIEW

**NEW FOR SPRING 2021!** Federal crop insurance coverage for Satsumas can now be considered with a written agreement for ANY county in Alabama, Florida and Georgia.

### Eligibility

- The grower must have produced a minimum of 100 boxes of fruit per acre in the past year.
- Trees will be insurable from day one.
- Insurability will be based on frost protection for both fruit and trees.

### Requirements

The grower must provide the following to their agent:

- Location of grove (Land's Legals, County and State)
- Plant dates for the trees in the grove
- Total acreage and tree counts for each legal description for their current operation
- All past production records from the packer or distributor (pick records by piece will suffice)
- Current FSA maps and soil records for the groves.

Agents, be sure to ask the grower if they are currently insuring the fruit with NAP at the FSA office. Are they reporting their Farm Serial Numbers as satsumas with the FSA?

### Premium Subsidies

If the written agreement is approved, the grower may choose insurance levels from 50% - 75% (trees) or 50% - 85% (fruit) in 5% increments, resulting in premium that has subsidies offered by the federal government.
