

Livestock Gross Margin Cattle

Livestock Gross Margin (LGM) - Cattle is a federally reinsured livestock product that provides protection against the loss of gross margin (market value of cattle less feeder cattle and feed costs) on fed cattle (yearling and calf). The LGM insurance policy uses futures prices to determine the expected gross margin and the actual gross margin. LGM does not insure against death, loss, or any other loss or damage to the producer's cattle. LGM - Cattle is a bundled option that covers both the cost of feeder cattle and the cost of feed. This effectively insures the producer's gross margin (difference between the gross margin guarantee and the actual gross margin at the end of the 11-month insurance period).

Availability

Available in all counties in all 50 states for yearling and calf finishing operations. Ownership of insured cattle must be certified by the producer and may be subject to inspection and verification by Hudson Insurance Company.

New for RY 2024

- Evidence of actual marketings are due within **60** days of receipt of the Notice of Probable Loss.
- Premium billing dates are either after the last month of target marketing or the end of the insurance period, whichever is earliest.
- The sales period begins each Thursday after the price guarantee is posted to the RMA site and ends the following day (Friday) at 8:25 AM CST.
- The Specific Coverage Endorsement (SCE) must be received by the AIP by the end of the sales period at 8:25 AM CST.

Recent Updates

- Premium subsidy will be based on the deductible selected by the livestock producer. Subsidy will range from 18% with \$0 deductible up to 50% with a deductible of \$70 or greater or according to the actuarials.
- Allows an insured to have both an LGM and LRP policy; however, an insured may not insure the same class of livestock with the same end month or have the same insured livestock under multiple policies.

Probable Loss

A Notice of Probable Loss will be sent to the insured if the Actual Gross Margin is less than the Gross Margin Guarantee. The insured must submit a marketing report and sales receipts, showing evidence of actual marketings, within **60** days of receipt of the Notice of Probable Loss.

Loss payments will be prorated if the actual marketings fall below **75%** of the expected targeted marketings. The price at which you actually sell the cattle does not affect the loss payment.

INSURANCE PERIODS

12 overlapping periods per calendar year, each with a rolling 11-month insurance cycle

COVERAGE

Insurance coverage begins one month and one day following the sales closing date.

**Guarantee =
Total Expected Gross
Margin - Deductible**

DEDUCTIBLE

\$0 - \$150/head in \$10 increments

ELIGIBLE OPERATION TYPES

Calf Finishing Operation - a feeding operation that purchases 550-Pound calves and feeds them until slaughter.

Yearling Finishing Operation - a feeding operation that purchases 750-pound yearling steers and heifers and feeds them until slaughter.
